Motion: Mrs. Karamanoogian

Second:

Roll Call Vote:

XXIII. Old Business

- A. School Walkthroughs for BOE Members
- B. Committee discussions
- C. **Board Resolution 2017-02-A**

WHEREAS the Board of Education recently instructed the Delanco School District's ("District") Superintendent, Mr. Joseph Mersinger to explore the District's options for the education of its students in Grades 9-12;

WHEREAS the Board of Education acknowledges that Mr. Mersinger conducted the exploration via research and communication with the Board Solicitor (Frank P. Cavallo, Jr. of Parker McCay) and the Executive County Superintendent for Burlington County (Darrell Minus-Vincent); and,

WHEREAS, the Board of Education recognizes that there are currently three options for public education of the District's students in Grades 9-12, and those options are: a sending-receiving relationship, which the District currently has with the Riverside Township School District; student participation in programs at the county vocational schools, which are currently available at the Burlington County Institute of Technology (Westampton and Medford); and school choice options, which are available at Northern Burlington County Regional School District, Pemberton Township School District, and in other New Jersey school districts outside of Burlington County; and,

WHEREAS, the Board of Education is aware that any change in the current sending-receiving relationship with the Riverside Township School District, such that the District's students in Grades 9-12 attend a high school other than Riverside Township High School, would require the District to conduct a feasibility study, in accordance with State law; and that the estimated cost of the aforementioned feasibility study would be between \$10,000 and \$20,000; and,

WHEREAS the Board of Education is also aware that, following a feasibility study, an application for changing a sending-receiving relationship must be approved by the Commissioner of Education of the State of New Jersey; and that in accordance with State law, the Commissioner must take into consideration the impact on education, finances, and racial composition for the student populations of both the sending and the receiving districts; and,
